

Certificate of attendance

Norwegian Organization for Quality Improvement of Laboratory Examination
(Noklus) certifies that

Independent Laboratory INVITRO FLLC in 2022

has participated in the Percentile and Flagger program. These are tools for
quality assurance in medical laboratories.

*Reporting data for the following analytes: Albumin, ALP, ALT, AST, Bilirubin, Ca, Cholesterol, Cl,
Creatinine, CRP, Ferritin, Folate, FT4, GGT, Glucose, Hb, HbA1c, HDL-Cholesterol, K, LDH, MCV, Mg, Na,
Phosphate, PLT, Protein, PSA, PTH, RBC, Triglycerides, TSH, Urea, Uric acid, Vitamin B12, Vitamin D, WBC*

*Participation allows laboratories to follow their own patient medians and flagging rates over time. A detection of
any change may, if necessary, allow the laboratory to initiate prompt investigations of possible pre-analytical or
analytical issues.*

Bergen, 27.01.2023

Best regards

Prof. Sverre Sandberg Director of Noklus
