

## Certificate of attendance

---

Norwegian Organization for Quality Improvement of Laboratory Examination  
(Noklus) certifies that

**Independent Laboratory INVITRO FLLC in 2020**

has participated in the Percentile and Flagger program. These are tools for  
quality assurance in medical laboratories.

*Reporting data for the following analytes: Albumin, ALP, ALT, AST, Bilirubin, Ca, Cholesterol, Cl,  
Creatinine, CRP, Ferritin, Folate, FT4, GGT, Glucose, Hb, HbA1c, HDL-Cholesterol, K, LDH, MCV, Mg, Na,  
Phosphate, PLT, Protein, PSA, PTH, RBC, Triglycerides, TSH, Urea, Uric acid, Vitamin B12, Vitamin D, WBC*

*Participation allows laboratories to follow their own patient medians and flagging rates over time. A detection of  
any change may, if necessary, allow the laboratory to initiate prompt investigations of possible pre-analytical or  
analytical issues.*

*Bergen, 27.01.2021*

*Best regards*

*Prof. Sverre Sandberg Director of Noklus*
